GFRC ISLAND
(L-SHAPED MODELS)

Model #s:  DL660-FO(R,K,D)-116BA
          DL660-SP(R,K,D)-116BA

ASSEMBLY INSTRUCTIONS
AND OWNER’S MANUAL

INSTALLER: Leave these instructions with consumer.
CONSUMER: Retain for future reference.

IMPORTANT: READ THESE INSTRUCTIONS CAREFULLY BEFORE STARTING INSTALLATION OR USE.

- Only Fire Magic grills and accessories can be used with this island.
- Fire Magic grill and accessories are not included. Contact your dealer for ordering information.
- When installing an L.P. cylinder within this island, it must be installed with a Fire Magic Door w/ Tank Tray and Louvers:
  Model #s 53820SC(H)-T(L,R), 33820-TS(L,R), 23920-1T-S
- Follow all instructions included with the grill and accessories to be installed into this island.
- This island design provides all necessary ventilation.

**IMPORTANT**

Remove all packing material (including any protective coatings) and discard prior to use.

**COMPONENTS ARE HEAVY**

HANDLE WITH CARE
WARNING: Failure to position the parts in accordance with these diagrams or failure to use only parts specifically approved with this unit may result in property damage or personal injury.

TOOLS REQUIRED
- 3/4" open end wrench, or equivalent (2)
- 1/2" open end wrench
- Power drill with 5/16" hex driver and #2 Phillips driver
- Level
- Flathead screwdriver

LOCATION
While following all requirements and safety information in the grill owner's manual, determine and prepare the location of the island (a hard and level surface).

Note: A combustible surface is permitted.

Important: For models with underneath gas installs, the gas supply must be routed to the location the grill island will rest over at this stage.

ASSEMBLY AND INSTALLATION REQUIRES TWO OR MORE PEOPLE.
EXERCISE EXTREME CARE DURING ASSEMBLY AND INSTALLATION.
CAUTION: Island components are heavy. CAREFULLY handle all components during assembly. Wear gloves.

- Fig. 8-1 provides an overall orientation and bolt assembly detail for the island with pantry.
- This section is just an overview, refer to the following step-by-step section for complete assembly (and grill/accessory installation) details.

ONLY HAND TIGHTEN BOLTS DURING STEP 2!
LEVEL, SQUARE, AND FULLY TIGHTEN DURING STEP 3.

1. Attach all levelers
2. Assemble walls (A-G)
   Note: Install outlet box w/ G
3. Adjust levelers to level top surfaces of unit evenly, ensure unit is square, then fully tighten all bolts *
4. Assemble top piece (H)
5. Install electrical *
6. Install floor pan
7. Install doors, drawers, and pantry *
8. Install power supply box (only bracket shown)
9. Place countertops
10. Install grill and double sideburner *

* not shown
ASSEMBLY AND INSTALLATION OVERVIEW - REFRIGERATOR MODELS

CAUTION: Island components are heavy. CAREFULLY handle all components during assembly. Wear gloves.
- Fig. 9-1 provides an overall orientation and bolt assembly detail for the island with refrigerator.
- This section is just an overview, refer to the following step-by-step section for complete assembly (and grill/accessory installation) details.

**ONLY HAND TIGHTEN**
BOLTS DURING STEP 2!
LEVEL, SQUARE, AND FULLY TIGHTEN DURING STEP 3.

ASSEMBLY AND INSTALLATION OVERVIEW - KEGE RATOR MODELS

CAUTION: Island components are heavy. CAREFULLY handle all components during assembly. Wear gloves.

- Fig. 10-1 provides an overall orientation and bolt assembly detail for the island with kegerator.
- This section is just an overview, refer to the following step-by-step section for complete assembly (and grill/accessory installation) details.

Fig. 10-1

- ONLY HAND TIGHTEN BOLTS DURING STEP 2!
- LEVEL, SQUARE, AND FULLY TIGHTEN DURING STEP 3.

ASSEMBLY / INSTALL OVERVIEW

1. Attach all levelers
2. Assemble walls (A-G)
   Note: Install outlet box w/ G2
3. Adjust levelers to level top surfaces of unit evenly, ensure unit is square, then fully tighten all bolts *
4. Assemble top piece (H)
5. Install electrical *
6. Install floor pan
7. Install doors and drawers *
8. Install power supply box (only bracket shown)
9. Place countertops
10. Install kegerator *
11. Install grill and double sideburner *

* not shown
ASSEMBLY AND INSTALLATION - STEP BY STEP

CAUTION: Island components are heavy. CAREFULLY handle all components during assembly. Wear gloves.

Important: DO NOT fully tighten any bolts until the island base is leveled and squared. Hand tighten until instructed to fully tighten.

Note: Various DL660 models are depicted here. Your assembly may slightly vary depending on model selected.

Note: The main pieces are labeled (alphabetically) to assist in identification and assembly.

Attach Levelers
1. Locate the island pieces in an appropriate location (refer back to the LOCATION section if needed).
2. Carefully lay down all pieces that make up the island base and attach the levelers (see Fig. 11-1).

Important: The levelers are required for ventilation and leveling purposes.

Assemble Side Wall (A) & Rear Wall (B)
Orient the side wall (A) and rear wall (B) as shown. Carefully align the pilot holes, and insert the hardware (hardware kit A) in the order shown. Hand tighten only. See Fig. 11-2.

Assemble Front Wall (C)
Orient the front wall (C) and repeat the hardware installation process (hardware kit A). Hand tighten only. See Fig. 11-3.

Assemble Rear Wall (D)
Orient the rear wall (D) as shown. Carefully align the pilot holes, and insert the hardware (hardware kit B) in the order shown. Hand tighten only. See Fig. 11-4.

Installation continued on next page
Assemble Side Wall (E)
Orient the side wall (E) and repeat the hardware installation process (hardware kit A). Hand tighten only. See Fig. 12-1.

Assemble Front Wall (F)
Orient the front wall (F) and repeat the hardware installation process (hardware kit A). Hand tighten only. See Fig. 12-2.

Assemble Side Wall (G or G1)
Orient the side wall (G or G1) and repeat the hardware installation process (hardware kit A). Hand tighten only. See Fig. 12-3 for your specific model.

**Installation continued on next page**
Assemble Side Wall (G or G2) & Install Outlet Box

Orient the other end of side wall (G), OR the separate side wall (G2), and repeat the hardware installation process (hardware kit B) for the bottom hardware first. Ensure the top pilot holes are also aligned. Hand tighten only. See Fig. 13-1, step 1.

An outlet box assembly is provided and requires installation. Assemble the box as shown (using a flathead screwdriver), then repeat the hardware installation process to secure both the top of the wall and the outlet box in place. Hand tighten only. See Fig. 13-1, step 2, and Fig. 13-2.

**Note:** Covers are provided for any outlets that will not be used (if applicable).

![Fig. 13-1 Assemble side wall and outlet box](image1)

![Fig. 13-2 Side wall and outlet box installed](image2)

Installation continued on next page
Level, Square & Fully Tighten Island Base

1. Use the level to ensure the top surfaces of the assembly are level. The levelers at the bottom of the island may be adjusted as needed with a 1/2" open end wrench. See Fig. 14-1.

2. Check for squareness of the island.
   a. Measure the X1 outer dimension, see Fig. 14-2. It should be approximately 111 5/8".
   b. Measure the Y1 outer dimension, see Fig. 14-2. Carefully adjust the walls as needed to ensure the X & Y dimensions are equal. (The final dimension may slightly vary from that mentioned in step a.)
   c. Measure the Z1 outer dimension, see Fig. 14-2. It should be approximately 32".
   d. Repeat this process for X2, Y2, and Z2 (see Fig. 14-3). X2 should be approximately 81 1/2". Z2 should be approximately 32".

3. Once the assembly is level and square, use one/two 3/4" open end wrenches (or equivalent) to fully tighten all hardware. DO NOT OVERTIGHTEN.

Note: Tightening of the hardware may slightly alter the setup. Check once more to ensure the island is level and square, and adjust if needed.

Installation continued on next page
Assemble Top Piece (H)
Orient the top piece (H) and repeat the hardware installation process (hardware kit B). Fully tighten. See Fig. 15-1.

Install Electrical
Have a licensed electrician route the electrical setup for your island. Three outlet boxes are available. The primary box is located on the interior of the side wall near the double sideburner. Two additional boxes exist in the top piece. See Fig. 15-2.

Your installation may vary. Follow all instructions included with the grill and accessories to be installed into this island. Observe the National Electric Code and all local codes.

Install Floor Pan
1. Place floor pan into the double door cutout as shown (see Fig. 15-3).
2. Use a level to ensure the top of the pan is level. The levelers at the bottom of the pan may be adjusted as needed. The floor pan will be secured during double door installation.

Installation continued on next page
Install Drawers, Doors, and Pantry (as applicable)

The accessories for your island are purchased separately. Review the instructions provided with your accessories.

Brackets are provided for ease of installation in this island. Follow the steps below.

1. Insert your unit completely into the appropriate opening. Ensure it is flush against the exterior wall (see Fig. 16-1, and Fig. 16-2 or Fig. 16-3, step 1).

2. The unit will have 2 oblong cutouts (or round holes) on both the top and bottom of its frame. Insert a bracket where a cutout exists, below the frame. See Fig. 16-2 or Fig. 16-3, step 2.

Note: When installing the double door ensure the bracket is inserted below the frame AND floor pan (see Fig 16-3).

3. While squeezing the rear of the bracket and the front of the frame firmly against the concrete wall, insert a hex screw and tighten with the power drill and 5/16” hex driver (see Fig. 16-2 or Fig. 16-3, step 3). DO NOT OVERTIGHTEN.

Note: Certain models may require a second person to hold the bracket against the concrete wall from within the island enclosure.

4. Repeat this process for the remaining brackets and the remaining accessories in the island.

Note: Only the cutouts in the top and bottom of the frames require brackets.

Installation continued on next page
Install Power Supply Box
A power supply box is included with your grill and requires installation.

**CAUTION:** Refer to the grill owner's manual for all safety information regarding the power supply box.

A bracket is provided for installation in this island. Follow the steps below.

1. **First** place the power supply box bracket over the rear wall, in the groove just to the left of the top piece (see Fig. 17-1).

2. Align the pilot holes on the power supply box with the holes on the bracket, then insert the two Phillips screws and tighten with the power drill and #2 Phillips driver (see Fig. 17-1). **DO NOT OVERTIGHTEN.**

**Note:** Power supply box design may vary.

Install Refrigerator (if applicable)
The refrigerator for your island is purchased separately. Refer to the instructions provided with the accessory.

In addition to all information found in the owner's manual, slide the refrigerator and plug it into the island electrical outlet (see Fig. 17-2).

安装继续在下一页
**Place Countertops**

1. Apply silicone along the top of all 3 island sections (see Fig. 18-1, step 1).

2. Place the countertop left piece onto the island as shown in Fig. 18-1, step 2. (Be sure to align the cutouts in the countertop with the openings in the front wall.)

3. Place the countertop center piece onto the island as shown in Fig. 18-1, step 3.

4. Place the countertop right piece onto the island as shown in Fig. 18-1, step 4.

**Install Kegerator (if applicable)**

The kegerator for your island is purchased separately. Refer to the instructions provided with the accessory.

**Note:** The countertop has cutouts for the kegerator below. In addition to all information found in the owner's manual, slide the kegerator and plug it into the island electrical outlet (see Fig. 18-2).

**Install Grill and Double Sideburner**

The grill and double sideburner for your island are purchased separately. Follow all instructions provided with your grill and double side burner for installation. See Fig. 18-3 for install locations.

---

**Fig. 18-1 Place countertop**

**Fig. 18-2 Install kegerator (if applicable)**

**Fig. 18-3 Install grill and sideburner**
• Keep the vent openings and surrounding area of the of the island clear and free at all times.
• For grill and accessory care and cleaning, refer to the owner’s manuals provided with the units.

CONCRETE COMPONENTS
As with any surface, concrete components require regular maintenance and care. Certain guidelines must be followed to preserve the concrete’s appearance and structural integrity.

• Use trivets to protect your countertop from high-heat.
• **Scratches may occur due to usage.** To minimize, avoid striking or dragging heavy, rough, or sharp objects across the countertop. Use a cutting board when using knives.
• **Spotting and hairline cracks may occur due to the nature of the product and are not considered a manufacturing defect.**
• Concrete products are porous and susceptible to discoloration from liquids (especially oils and acidic substances). During use, **clean up any spills immediately** to prevent any possible staining or damage to the finish. Avoid allowing water (or any liquid / substance) to stand on the surface. Using coasters for drinks is highly recommended.
• After each use, **clean up any food particles or debris.**
• **To clean the concrete, first wash with a mild soap and water solution.** For stubborn stains, a vinyl brush may be used. **Allow to dry.** Annually, follow up with a masonry sealer in order to preserve the finish.
• It should be noted that, like natural stone, concrete products will develop a patina when left outside. No two concrete products are identically the same and the finish will vary.
